

Project Proposal & Payment Terms

Build delivery, post-launch support, and engagement

1 Payments (Expected)

Milestone	Scope	Amount
Advance On agreement	To begin work	Rs 100,000
Initial product 4 weeks	Booking flow, payments, videos	Rs 150,000
Product delivery 8 weeks	Remaining modules	Rs 75,000
Build total	Booking flow, payments, videos & remaining modules	Rs 325,000

This is a proposed split — if you would prefer the payments divided another way, you are welcome to suggest it.

Support	Duration	Amount
Post-delivery support Monthly	3 months after delivery	Rs 50,000 per month
3-month total	Rs 50,000 × 3 months	Rs 150,000

Paid monthly: Rs 50,000 at the end of each month, for the 3 months following delivery (Rs 150,000 in total).

2 My Understanding of What You Expect From Me — Post Product Delivery

- I will give a few hours a week as we discussed (5 to 8 hours, can be flexible depending on the situation).
- On the weekdays my office is from 12pm to 8pm, so I would not be available for meetings or prompt support, but would be on-call if you have to discuss anything (10 to 15 minutes is manageable, given I am not in a meeting).
- We can meet after I get free from office (commute, dinner, etc.), so I would be available for meetings after 11:00pm every day.
- Flexibility on weekends, etc.
- Any off days (i.e. vacations, etc.) would be communicated by me, and I would ensure that we are at a mutual agreement about them. I would be available during these times as well (unless I am travelling, obviously) and can give support if needed.
- I would love to work as a team member, friend, and partner rather than an employee.
- I would be grateful if you could keep me involved in business meetings as well, even if they are not relevant to my expertise (operations, clinical, financial). I promise I wouldn't interrupt and would just listen — this would help me develop a connection with your business and team, and make me feel like I am a part of this business as well.

If you have any questions, do feel free to ask.
